The following two proposals will be presented at the meeting for your vote. Space is provided in the accompanying proxy card to vote for, against, or abstain from voting on each of the proposals. If you vote using the telephone or Internet, you will be instructed how to vote for, against, or abstain from voting on these issues.

PROPOSAL NO. 1

RE-ELECTION OF DIRECTOR

There is one director standing for re-election to our Board this year. The nominee is Ghazi Sultan. He has served as a director since the last annual meeting and will serve a three year term expiring in 2013.

There are no family relationships among our executive officers and directors.

If you sign your proxy or voting instruction card but do not give instructions with respect to voting for directors, your shares will be voted for the person recommended by the Board. If you wish to give specific instructions with respect to voting for directors, you may do so by indicating your instructions on your proxy or voting instruction card.

The nominee has indicated to the Company that he will be available to serve as a director. In the event that the nominee should become unavailable, however, the proxy holders, Connie Cook and/or Nicholas Carter, will vote for a nominee or nominees designated by the Board.

If an incumbent director nominee receives a greater number of votes “AGAINST” his or her election than votes “FOR” such election, he or she is required to tender his or her resignation for consideration by the Nominating Committee in accordance with Board policy.

Vote Required

Each director nominee who receives more “FOR” votes than “AGAINST” votes representing shares of Company common stock present in person or represented by proxy and entitled to be voted at the annual meeting will be elected.

Our Board recommends a vote FOR the election to the BOARD of the following nominee:

Ghazi Sultan

Director since 1993

Age 74

Mr. Ghazi Sultan, a Saudi citizen, holds a MSc. Degree in Geology from the University of Texas. Mr. Sultan served as the Saudi Deputy Minister of Petroleum and Mineral Resources 1965-1988 and was responsible for the massive expansion of the mineral resources section of the Ministry. Mr. Sultan is also a member of the Board of Al Masane Al Kobra Mining Company.

CORPORATE GOVERNANCE PRINCIPLES AND BOARD MATTERS

The Company is committed to maintaining the highest standards of business conduct and corporate governance, which we believe are essential to running our business efficiently, serving our stockholders well and maintaining the Company’s integrity in the marketplace. The Company has adopted a Code of Ethics that applies to the Company’s principal executive officer, principal financial officer, principal accounting officer and controller, and to persons performing similar functions. The Company’s Code of Ethics, in conjunction with the Certificate of Incorporation, By-laws and Board committee charters, form the framework for governance of the Company.

The Company’s Code of Ethics, Certificate of Incorporation, By-laws and Board committee charters are available on the Company’s website at www.arabianamericandev.com. Stockholders may also request free printed copies of these from the Corporate Secretary at the address on page 21.

Board Policy Regarding Voting for Directors

The Company has implemented a plurality vote standard in the election of directors. In addition, the Company has adopted a policy whereby any incumbent director nominee who receives a greater number of votes “AGAINST” his or her election than votes “FOR” such election will tender his or her resignation for consideration by the Nominating Committee. The Nominating Committee will recommend to the Board the action to be taken with respect to such offer of resignation.

Board Independence

The Company has implemented a policy that a majority of the Board will consist of independent directors. The Board has determined that the non-employee director nominee, Ghazi Sultan, standing for election and each of the members of each Board committee are independent within the meaning of the Company’s director independence standards. The Company standards reflect NASDAQ corporate governance listing standards. In addition, each member of the Audit

Committee meets the heightened independence standards required for audit committee members under the NASDAQ listing standards.

Meetings of the Board and Its Committees

Because of the geographical distance between members of the Board, meetings are typically held via telephone conference call. In the instance where all members cannot be contacted at once, members may be contacted individually, and upon agreement, Unanimous Consent Resolutions are signed. During 2009 the Board held thirteen meetings.

The Company's Director Independence Standards

An independent director is a person other than an executive officer or employee of the Company or any other individual having a relationship which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. A director will not be considered independent in the following circumstances:

- (1) The director is, or has been in the past three years, an employee of the Company or an employee of any parent or subsidiary of the Company;
- (2) The director has accepted, or has a family member who has accepted during any twelve-month period within the last three years, more than \$60,000 in compensation from the Company, other than compensation for Board or Board Committee service, compensation received by the director's immediate family member for service as a non-executive employee of the Company, and benefits under a tax-qualified retirement plan, or non-discretionary compensation.
- (3) The director is a family member of an individual who is, or at any time during the past three years was, employed by the Company as an executive officer;
- (4) The director is, or has a family member who is, a partner in, or a controlling shareholder or an executive officer of, any organization to which the company made, or from which the company received, payments for property or services in the current or any of the past three fiscal years that exceed 5% of the recipient's consolidated gross revenues for that year, or \$200,000, whichever is more, other than (i) payments arising solely from investments in the company's securities; or (ii) payments under non-discretionary charitable contribution matching programs;
- (5) The director is, or has an immediate family member who is, employed as an executive officer of another entity where at any time during the past three years any of the executive officers of the Company serve on the compensation committee of such other entity; or
- (6) The director is, or has a family member who is, a current partner of the Company's outside auditor, or was a partner or employee of the Company's outside auditor who worked on the Company's audit at any time during any of the past three years.

For these purposes, a "family member" means a person's spouse, parents, children and siblings, whether by blood, marriage or adoption, or anyone residing in such person's home.

Board Structure and Committee Composition

As of the date of this proxy statement, our Board has seven directors and the following three standing committees: (1) Audit, (2) Compensation, and (3) Nominating. Committee membership and meetings during the last fiscal year and the function of each of the standing committees are described below. Each of the standing committees operates under a written charter adopted by the Board. Committee charters are available on the Company's website at www.arabianamericandev.com. Free printed copies are also available to any stockholder who makes a request to the address on page 21. Each current director attended at least 75% of all Board and applicable standing committee meetings. Directors are encouraged to attend annual meetings of Company stockholders.

Stockholder Recommendations

The policy of the Nominating Committee is to consider properly submitted stockholder recommendations of candidates for membership on the Board as described below under "Identifying and Evaluating Candidates for Directors." In evaluating such recommendations, the Nominating Committee seeks to achieve a balance of knowledge, experience and capability on the Board and to address the membership criteria set forth below under "Director Qualifications." Any stockholder recommendations proposed for consideration by the Nominating Committee should include the candidate's name and qualifications for Board membership and should be addressed to the Corporate Secretary at the address on page 21.

Director Qualifications

The Company maintains certain criteria that apply to nominees recommended for a position on the Company's Board. Under these criteria, members of the Board should have the highest

professional and personal ethics and values, consistent with longstanding Company values and standards. They should have broad experience at the policy-making level in business, government, education, technology or public service. They should be committed to enhancing stockholder value and should have sufficient time to carry out their duties and to provide insight and practical wisdom based on experience. Their service on other boards of public companies should be limited to a number that permits them, given their individual circumstances, to perform responsibly all director duties. Each director must represent the interests of all stockholders of the Company.

Identifying and Evaluating Candidates for Directors

The Nominating Committee uses a variety of methods for identifying and evaluating nominees for director. The Nominating Committee regularly assesses the appropriate size of the Board and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Nominating Committee considers various potential candidates for director. Candidates may come to the attention of the Nominating Committee through current Board members, professional search firms, stockholders or other persons. Identified candidates are evaluated at regular or special meetings of the Nominating Committee and may be considered at any point during the year. As described above, the Nominating Committee considers properly submitted stockholder recommendations for candidates for the Board to be included in the Company's proxy statement. Following verification of the stockholder status of people proposing candidates, recommendations are considered together by the Nominating Committee at a regularly scheduled meeting, which is generally the first or second meeting prior to the issuance of the proxy statement for the Company's annual meeting. If any materials are provided by a stockholder in connection with the nomination of a director candidate, such materials are forwarded to the Nominating Committee. In evaluating such nominations, the Nominating Committee seeks to achieve a balance of knowledge, experience and capability on the Board.

Executive Sessions

Executive sessions of independent directors are held at least three times a year. The sessions are scheduled and chaired by the lead independent director. Any independent director may request that an additional executive session be scheduled.

Compensation Discussion and Analysis

Objectives of the Compensation Programs

The compensation programs of the Company are designed to attract and retain qualified individuals upon whom the sustained progress, growth, profitability, and value of the Company depend. It is the plan of the Board that through the Compensation Committee, the Company will develop and implement compensation policies, plans and programs to further these goals by rewarding executives for positive financial performance. The Company's executive compensation program is intended to align the interests of its management team with those of its shareholders by motivating the executive officers to achieve strong financial and operating results for the Company, which it believes closely correlates to long-term shareholder value. In addition, the Company's program is designed to achieve the following objectives:

- attract and retain talented executive officers by providing reasonable total compensation levels competitive with that of executives holding comparable positions in similarly situated organizations;
- provide total compensation that is justified by individual performance;
- provide performance-based compensation that balances rewards for short-term and long-term results and is tied to both individual and the Company's performance; and
- encourage the long-term commitment of our executive officers to the Company and its shareholders' long-term interests.

What the Compensation Programs are Designed to Reward

The compensation programs are designed to reward performance that contributes to the achievement of the Company's business strategy on both a short-term and long-term basis. In addition, the Company rewards qualities that it believes help achieve its strategy such as teamwork; individual performance in light of general economic and industry specific conditions; performance that supports the Company's core values; resourcefulness; the ability to manage existing assets; the ability to explore new avenues to increase profits, level of job responsibility; and tenure. The Company does not currently engage any consultant related to executive and/or director compensation matters.

Elements of the Company's Compensation Program and Why It Pays Each Element

To accomplish its objectives, the Company seeks to offer a total direct compensation program to its executive officers that, when valued in its entirety, serves to attract, motivate and retain executives with the character, experience and professional accomplishments required for the Company's growth and development. The Company's compensation program is comprised of four elements:

- base salary;
- incentive compensation;
- stock option plan; and
- benefits.

Base Salary

The Company pays base salary in order to recognize each executive officer's unique value and historical contributions to the Company's success in light of salary norms in the industry and the general marketplace; to match competitors for executive talent; to provide executives with sufficient, regularly-paid income; and to reflect position and level of responsibility. The base salaries of Mr. Carter, Mr. Williamson and Ms. Cook have been subject to a standard cost of living increase annually over the past several years at the same rate as other Petrochemical Segment employees. In addition, Mr. Carter's annual salary was increased to \$250,000 effective July 1, 2009, due to his promotion to CEO.

None of the Company's executives are parties to employment agreements. At the Compensation Committee's discretion, base salaries may be increased based upon performance and subjective

factors. For 2009 the Compensation Committee increased the base salary of the executives by 4%, the same rate as other petrochemical segment employees. Subjective factors the Compensation Committee considered include individual achievements, the Company's performance, level of responsibility, experience, leadership abilities, increases or changes in duties and responsibilities and contributions to the Company's performance.

Incentive Compensation

The full Board has reviewed and acted upon the executive performance awards based upon the financial results for the years ended 2009 and 2008. The performance awards have been in the form of cash and stock and have been awarded in the first quarter of each year dependent on the results of the previous year. The Compensation Committee has taken over making these recommendations and is developing a formal program per the Policies which are currently under consideration. The total award is calculated based upon performance of the Company compared with the 2005 performance which is considered the base year. The award is paid in the first quarter after the financial results of the year ended are reasonably known. The Company includes an annual cash bonus as part of its compensation program because it believes this element of compensation helps to motivate management to achieve key individual and operational objectives by rewarding the achievement of these objectives. Assessment of individual performance may include objectives such as improving profitability or completing a project in a timely manner, as well as, qualitative factors such as ability to lead, ability to communicate, and adherence to the Company's values. No specific weights are assigned to the various elements of performance. The annual cash bonus also allows the Company to be competitive from a total remuneration standpoint. In general, the Compensation Committee targets between 10% and 15% of base salary for performance deemed by the Compensation Committee to be good (to generally exceed expectations) and great (to significantly exceed expectations), respectively, with the possibility of no bonus for poor performance and higher for exceptional corporate or individual performance.

Long-term equity-based compensation is an element of the Company's compensation policy because it believes it aligns executives' interests with the interests of shareholders; rewards long-term performance; is required in order for the Company to be competitive from a total remuneration standpoint; encourages executive retention; and gives executives the opportunity to share in the Company's long-term performance. The Compensation Committee and/or the Board of Directors act as the manager of the Company's long-term incentive plan (the "Plan") and perform functions that include selecting award recipients, determining the timing of grants and assigning the number of units subject to each award, fixing the time and manner in which awards are exercisable, setting exercise prices and vesting and expiration dates, and from time to time adopting rules and regulations for carrying out the purposes of the Company's plan. For compensation decisions regarding the grant of equity compensation to executive officers, the Compensation Committee will consider recommendations from the Company's chief executive officer. Typically, awards vest immediately, but the Compensation Committee maintains the discretionary authority to vest the equity grant over multiple years if the individual situation merits. In the event of a change of control, or upon the death, disability, retirement or termination of a grantee's employment without good cause, all outstanding equity based awards will immediately vest.

In 2009 the Company's executives received no award based upon 2008 performance. For 2009 performance, \$130,000 in cash and 65,000 in options were awarded and paid in the first quarter of 2010. There is no set formula for granting awards to Company executives or employees, although the Compensation Committee is working towards that goal. In determining whether to

grant awards and the amount of any awards, the Compensation Committee takes into consideration discretionary factors such as the individual's current and expected future performance, level of responsibilities, retention considerations, and the total compensation package.

Stock Option Plan

The Company adopted a stock option plan during 2008.

Other Compensation

There is no other compensation paid to the executive officers.

Benefits

The Company believes in a simple, straight-forward compensation program and, as such, Company executives are not provided significant, unique perquisite or other personal benefits not available to all employees. Consistent with this strategy, no perquisites or other personal benefits unique to Company executives are expected to exceed \$10,000 annually. The Company provides benefits to all employees that it believes are standard in the industry. These benefits consist of a group medical and dental insurance program for employees and their qualified dependents, group life insurance for employees and their spouses, accidental death and dismemberment coverage for employees, a Company sponsored cafeteria plan and a 401(k) employee savings and investment plan. The Company matches employee deferral amounts, including amounts deferred by named executive officers, up to a total of 6% of the employee's eligible salary, excluding annual cash bonuses, subject to certain regulatory limitations.

How Elements of the Compensation Program are Related to Each Other

The Company views the various components of compensation as related but distinct and emphasizes "pay for performance" with a significant portion of total compensation reflecting a risk aspect tied to long-term and short-term financial and strategic goals. The Company's compensation philosophy is to foster entrepreneurship at all levels of the organization by making long-term equity-based incentives, in particular stock option grants, a significant component of executive compensation. The Company determines the appropriate level for each compensation component based in part, but not exclusively, on its view of internal equity and consistency, and other considerations it deems relevant, such as rewarding extraordinary performance.

The Compensation Committee, however, has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid out compensation, between cash and non-cash compensation, or among different forms of non-cash compensation, but as noted previously, is working towards that goal.

Performance Metrics

The Compensation Committee did not establish performance metrics for executive officers at the beginning of the year. In setting 2009 bonus and long-term incentive amounts, the Compensation Committee considered the performance of executive officers on a subjective level and the overall performance of the Company in the tough economic climate of 2009 as compared to the base year of 2005. The base year was chosen as a measurement point because (a) it is far enough back in history to serve as a basis for longer term trends and performance direction and

(b) as a point in which the operation, including petroleum prices, were relatively stable and routine. During 2009, the Company's executive officers:

- Managed successful completion of the derivative situation which occurred in 2008;
- Entered into a compromise agreement with Saudi shareholders settling the capital structure of AMAK;
- Produced an EBITDA from continuing operations of approximately \$15.0 million for 2009 compared to \$12.5 million for 2005;
- Managed a 12% increase in total volume sold for 2009 during a global/US recession period, when most US companies volumes were down;
- Utilized 20% of the new/additional capacity that was added in the fourth quarter of 2008;
- Established an International Sales and Marketing office in Madrid Spain for continued development of International markets and opportunities, along with addressing the EU REACH Program;
- Added an additional Account Manager to assume domestic responsibilities vacated by representative sent overseas to open International S&M office; and
- Established a Risk Management Policy and Procedures Manual.

Based on these and other factors, the Compensation Committee awarded bonuses and long-term incentives as discussed above to the Company's executives for 2009 performance which were paid in the first quarter of 2010.

Termination of Employment Payments

There were no termination payments made to executive officers during 2009. No persons currently serving as an executive officer are entitled to severance benefits of any nature.

Tax Considerations

There are no tax considerations which affect the compensation of executives for 2009.

Compensation Committee Report

We have reviewed and discussed with management the compensation discussion and analysis required by Item 402(b) of Regulation S-K. Based on the review and discussion referred to above, we recommend to the board of directors that the compensation discussion and analysis be included in the Company's 2010 proxy statement. Mr. Carter is currently a director and President of Pioche, and Mr. Charles Goehringer, Jr. is currently a director of Pioche. Neither Mr. Carter nor Mr. Goehringer receive fees or compensation for serving on the Board of Directors of Pioche. The Company is providing funds necessary to cover the Pioche operations. During 2009 and 2008, the Company made payments of approximately \$34,000 and \$65,000, respectively, for such purposes. As of December 31, 2009, Pioche owed the Company \$301,239 as a result of advances made by the Company. The indebtedness is secured by real estate but bears no interest.

Pursuant to a lease agreement, South Hampton leases transportation equipment from STTC. Lease payments at the beginning of 2009 were approximately \$70,320 per month and were raised to approximately \$79,178 per month as new and additional tractors and trailers were added to the fleet throughout the year. With the increase in volume of the products produced with the expansion of the facility, additional transportation equipment was required. Under the lease arrangement, STTC provides transportation equipment and all normal maintenance on such equipment and South Hampton provides drivers, fuel, management of transportation operations and insurance on the transportation equipment. Approximately 95% of STTC's income will be derived from such lease arrangement. South Hampton entered into a new lease agreement with STTC on February 3, 2009. STTC also previously entered into a capital lease with South Hampton for acquisition of a motorized manlift. Company *stockholders of record* are entitled to vote on the items of business described in this proxy statement. *Stockholders of record* may (1) attend the annual meeting and vote their shares in person; (2) vote by submitting a proxy; or (3) vote electronically via the Internet or by telephone. *Beneficial owners* may (1) attend the annual meeting and vote their share in person only if they obtain a legal proxy from their broker, trustee or nominee; (2) vote by submitting voting instructions; or (3) vote electronically via the internet or by telephone.

Voting Securities, Record Date

Shareholders of record at the close of business on April 21, 2010, (the "record date") are entitled to vote at the meeting and any adjournment or postponement of the meeting. On the record date, there were 23,750,745 shares of common stock (\$0.10 par value) issued and outstanding.

Stockholder of Record

If your shares are registered directly in your name, you are the *stockholder of record* of those shares, and these proxy materials are being sent directly to you by the Company. As a *stockholder of record*, you have the right to grant your voting proxy directly to the Company or a third party, or vote in person at the meeting. The Company has enclosed a proxy card for you to use.

Beneficial Owner

If your shares are held in a brokerage account or by another nominee, you are considered the *beneficial owner* of shares held in street name, and these proxy materials are being forwarded to you together with a voting instruction card on behalf of your broker, trustee or nominee. **Effective January 1, 2010, your broker will no longer be permitted to vote on your behalf on the election of directors unless you provide specific instructions** by completing and returning the Voting Instruction Form or following the instructions provided to you to vote your shares via telephone or the Internet. For your vote to be counted, you now need to communicate your voting decisions to your broker, bank or other financial institution before the date of the shareholder meeting.

Voting in Person at the Annual Meeting

Stockholders of record are invited to attend the Annual Meeting of Stockholders on June 9, 2010, at South Hampton Resources, Silsbee, TX and vote their shares in person. *Beneficial owners* may vote in person at the annual meeting only if they obtain a legal proxy from their broker, trustee or nominee that holds your shares giving you the right to vote the shares.

Voting by Submitting a Proxy or Voting Instructions

Regardless of whether you plan to attend the annual meeting, *stockholders of record* and *beneficial owners* have the option of voting their shares by submitting a proxy or voting instructions.

Stockholders of record may vote by proxy. To vote by proxy, *stockholders of record* must complete, sign and date their proxy cards and mail them in the accompanying pre-addressed envelopes. Your proxy card and pre-addressed envelope is included with this proxy statement.

Beneficial owners may vote by submitting voting instructions to their broker, trustee or nominee. Your voting instruction card should be provided by your broker, trustee or nominee. Please refer to your voting instruction card for voting procedure and additional information.

Proxies and Voting Instructions Are Revocable

A *stockholder of record* may change his or her vote by either: (1) submitting a new proxy bearing a later date (which automatically revokes the earlier proxy); (2) providing written notice of revocation to the Corporate Secretary at the address listed above in the “Questions and Requests for Additional Information” section; or (3) attending the annual meeting and voting in person. Please note that your attendance at the annual meeting will not revoke a previously submitted proxy unless you specifically make such a request. A *beneficial owner* may change his or her vote by either: (1) submitting new voting instructions to the appropriate broker, trustee or nominee; or (2) if you have obtained a legal proxy from your broker, trustee or nominee giving you the legal right to vote your shares, by attending the annual meeting and voting in person.

Voting Electronically

Stockholders of record and *beneficial owners* may vote electronically by following the instructions provided on their proxy cards prior to 11:59 p.m. C.D.T. on June 8, 2010.

Voting Procedures

The Company’s by-laws provide that each stockholder shall have one vote for each share of stock having voting power, registered in his name on the books of the Company.

Election of Directors

In the election of directors, you may vote “FOR,” “AGAINST” or “ABSTAIN” with respect to each of the nominees. If you elect to “ABSTAIN” in the election of directors, the abstention will not impact the election of directors. Only “FOR” and “AGAINST” votes are counted in the election of directors. As provided in the Company’s corporate by-laws, directors are elected upon a plurality vote of the shareholders. Therefore, a nominee will only be elected if the votes cast “FOR” the nominee’s election exceed the number of votes cast “AGAINST” the nominee’s election. Cumulative voting is not permitted in the election of directors.

Voting on Other Business Items

When voting on other business matters, you may vote “FOR,” “AGAINST” or “ABSTAIN.” If you elect to “ABSTAIN,” the abstention has the same effect as a vote “AGAINST.” Business proposals, other than the election of the directors, require the affirmative vote of a majority of those shares present in person or represented by proxy and entitled to vote on those proposals at the annual meeting.

How Shares will be Voted by Proxy or Voting Instructions

If you provide specific instructions with regard to certain proposals, your shares will be voted as you instruct on such proposals. If you sign your proxy card or voting instruction card without giving specific instructions, your shares will be voted in accordance with the recommendations of the Board (“FOR” the Company’s nominee to the Board and ratification of Travis Wolff, LLP as the Company’s independent registered public accounting firm for 2010).

Broker Non-Votes

If you hold shares beneficially in street name and do not provide your broker with voting instructions, your shares may constitute “broker non-votes.” Generally, broker non-votes occur on a matter when a broker is not permitted to vote on that matter without instructions from the beneficial owner and instructions are not given. In tabulating the voting result for any particular proposal, shares that constitute broker non-votes are not considered entitled to vote on that proposal. Thus, broker non-votes will not affect the outcome of any matter being voted on at the meeting, assuming that a quorum is obtained. Abstentions have the same effect as votes against the matter except in the election of directors, as described above.

Additional Business Proposals Presented at Meeting

Other than the re-election of a director and the ratification of the selection of the Company’s independent registered public accounting firm, the Board is not aware of any other business to be acted upon at the annual meeting. However, if you grant a proxy, the persons named as proxy holders will have the discretion to vote your shares on any additional matters properly presented for a vote at the meeting. If for any reason any nominee is not available as a candidate for director, the persons named as proxy holders will vote your proxy for such other candidate or candidates as may be nominated by the Board.

Quorum Requirement

The quorum requirement for holding the annual meeting and transacting business is that holders of a majority of the Company stock issued and outstanding and entitled to vote at the meeting, must be present in person or represented by proxy. Both abstentions and broker non-votes are counted for the purpose of determining the presence of a quorum.

OTHER BUSINESS

As of the date of this proxy statement’s printing, we do not intend to submit any matters to the meeting other than those set forth herein, and we know of no additional matters that will be presented by others. However, if any other business should come before the meeting, the persons named in the enclosed proxy card have discretionary authority to vote your shares with respect to such matters in accordance with their best judgment.
